SUMMARY

Senior full-stack developer with 10+ years of experience building scalable web applications across React, Vue.js, WordPress, PHP, Shopify, Python, FastAPI, GraphQL, and PostgreSQL. Leads frontend development across multi-application products and contributes end to end across backend systems, shipping production features from UI to infrastructure.

SKILLS

Frontend: React, Next.js, Vue.js, TypeScript, JavaScript, Tailwind CSS, Vite

Backend: Python, FastAPI, PHP, Laravel, Node.js, GraphQL, REST APIs

CMS & E-commerce: Shopify, WordPress

Testing: Playwright, Vitest, Jest

Cloud & DevOps: Docker, AWS (EC2, S3, CloudFront), GitHub Actions, CI/CD

Tools: Git, Storybook, Figma, Jira, Linear

EXPERIENCE

Senior Full-Stack Developer & Frontend Lead | VetEngage

Aug 2024 - July 2026

- Led frontend platform engineering by establishing the Turborepo/pnpm monorepo and CI/CD pipeline, including build, lint, test, end-to-end, visual-regression, and AWS deployment workflows.
- Created and maintained the shared React design system (Radix UI, Tailwind CSS, Storybook, Changesets versioning) used across every app.
- Led development of the online booking application and contributed substantially to the staff dashboard, using React 19, TypeScript, Apollo Client, Zustand, Zod, and React Router.
- Built product features end to end on the backend: the patient check-in and walk-in system and appointment confirmation flow, across GraphQL resolvers, PostgreSQL migrations, Temporal workflows, transactional email, and tests.

Lead Frontend Developer | Luxsurance

Jun 2021 - Aug 2024

- Architected and led the initial development of the enterprise insurtech admin dashboard and customer application in Vue.js 2.
- Led the Vue.js 2 to Vue.js 3 migration for an enterprise insurtech admin dashboard and customer app.
- Built responsive UI with Vue.js and Tailwind CSS; integrated ASP.NET Core and .NET REST APIs.
- Established CI/CD with GitHub Actions; ensured reliability with Cypress and Jest; used TypeScript and Azure DevOps.

Senior Frontend Developer | Mesasix

Oct 2015 - Jun 2021

- Built custom web applications and CMS-driven websites using Vue.js, Tailwind CSS, WordPress, and Laravel.
- Delivered responsive SPAs integrated with REST APIs, admin panels, and bilingual (RTL) websites.
- Built bilingual (English/Arabic, RTL) websites for UAE government bodies, including several ministries and Abu Dhabi authorities.
- Delivered custom WordPress sites for clients including Jarvis Analytics, Luxsurance, twofour54, Thrive Behavior Centers, and EARS Texas.
- Built custom Shopify stores for Dr. Flora Kim and Joanna Czech,

Full-Stack Developer | Webforest Digital Solutions

Apr 2015 - Sep 2015

- Developed responsive websites and e-commerce solutions with PHP, MySQL, WordPress, and WooCommerce.
